

Dear Rainer,

this is _____ the visitor from Indonesia who bought the violin at your workshop on September 29, 2006. I came with my two sisters who speak German.

Just to drop a few lines to say hi and let you know that I'm very happy with my new Mittenwald violin. I'm back to Jakarta and the violin is doing well. I try to play it everyday so that the violin will respond more nicely. Currently the new strings need a bit of time to settle, therefore I can still hear the "harsh" sound a bit when I play it loudly.

Thank you again. I will update you any news about the violin in the future.

Take care.....

Best regards,
